This exhibition, for students and children ages 6-12 and their families, explores Jewish immigration to America through issues that pertain to our everyday lives. Since everyone’s family has experienced moving to a new land, this fun-filled children’s exhibit will relate to visitors of all cultures, highlighting the similarities and challenges our families faced as immigrants. As visitors travel the exhibit route they will learn about the lives Jews left and the people they became; the contributions they made and the benefits they received in the New Land and the roles that traditions, texts and communities played as they created their new lives in America.

Hands-on activities allow visitors to experience assimilation through various themes:

- Why Move?
- Where to Go?
- What to Take?
- New Beginnings
- Helping Each Other
- Change & Influence
